Wherever you are in the life cycle of your defined benefit plan, Pacific Life can help you achieve your short- and long-term goals, even if your plan is currently underfunded. Our full line of solutions means we can provide one solution or a strategically customized mix that takes into consideration your plan’s funded status, employee population, financial obligations, long-term perspective, and much more.

The chart below shows the Pacific Life solutions that may help you reach your goals at each stage of your plan.

### Pacific Insured LDI®
An innovative alternative to best-efforts liability-driven investing (LDI) strategies. Guarantees plan assets move in sync with projected plan liabilities regardless of interest-rate changes or the performance of the underlying investment portfolio, with no tracking error. Provides liquidity for monthly benefit payments.

### Pacific Secured Buy-In®
Similar to the Pacific Life Transferred Buy-Out in that it transfers risk of investment performance, mortality, and plan experience from the plan sponsor to Pacific Life. However, the Buy-In contract remains an asset of the plan and thus it does not reduce the plan’s funded status or trigger settlement accounting like a Buy-Out. The Buy-In can be converted to a Buy-Out at any time with no additional charges.

### Pacific Transferred Buy-Out®
Completely transfers all pension risk and benefit liability from the plan sponsor to Pacific Life on either a partial (a portion of plan participants) or full (complete termination) basis.

### Pacific Lifetime Income®
An open-ended contract permitting the purchase of income annuities over time as individual participants retire. Available for both defined benefit and defined contribution plan participants. Using all or part of the assets they’ve accumulated in your company plan, employees can purchase guaranteed lifetime income payments at institutional pricing. Pacific Life assumes all risk and administrative expenses, and makes income payments directly to your retired employees.
Ongoing Plan
- Achieve a better asset/liability match.
- Reduce funded status volatility and its impact on your balance sheet.
- Guarantee income with monthly benefit payments.

Closed/Frozen Plan
- Achieve a better asset/liability match.
- Reduce funded status volatility and its impact on your balance sheet.
- Guarantee income with monthly benefit payments.

Terminating Plan
- Remove all pension-plan risks and obligations from your balance sheet.
- Eliminate all administrative costs.
- Guarantee\(^1\) lifetime income for plan participants.

\(^1\)Guarantees are backed by the financial strength and claims-paying ability of the issuing insurance company.
